Gameplay:

Standard rules of 3 Card Poker apply for this bonus bet game.

How it works:

1. Player makes an ante and has the option of the First 3 Bonus.
2. The First 3 Bonus Bet is for any amount between the house minimum and the maximum and is on the first 3 cards.

LOSES ON FOLD	
HAND	PAYOUT
Pair	1:1
Flush	3:1
Straight	6:1
Trips	30:1
Straight Flush	50:1
Mini Royal	200:1

3. After all bets are made, players get 3 cards, while the dealer gets 4
4. Player then has three options to choose from:
 - a. Fold and lose ante as well as any bonus bets.
 - b. Make an In to Win Bet equal to the ante.
 - c. Make a Draw bet equal to ante to draw one card, while forfeiting another.
5. After all players complete their hand, the dealer completes their hand (using the best 3 of the 4 cards).
6. Hands are compared per standard 3 card rankings.
7. Player wins both the ante and In to Win / Draw bets if they beat the dealer, otherwise they lose both bets.
8. If the player and dealer tie, both the ante and In to Win or Draw will result in a push.
9. Bonuses on a final hand of straight or better (In to Win or Draw) are paid regardless of the outcome of the hand, as follows:

BONUS: STRAIGHT OR BETTER: PAYS ON IN TO WIN/DRAW BET	
Straight	1
Trips	5
Straight Flush	10
Mini Royal	20
PAYS WHETHER OR NOT PLAYER BEATS THE DEALER
