# THREE CARD CRAPS

A multi deck card game (Ace through 6) which plays by all the standard rules of CRAPS and puts the SHOOTER back in control of the roll! The dealer draws THREE cards from a shoe or continuous shuffler and places them in Spots labeled 1, 2, and 3. The "shooter" determines the outcome of the roll by picking TWO of the THREE cards. The sum total of the TWO cards is the roll.

## ANY CRAPS/MATCH SIDE WAGER

Any Craps pays 1:1 on the come out roll.

Match: Wins if the number value of both of the shooter's cards match the number value of the SPOTS they are placed in.

EX: Shooter picks SPOTS 2 and 3. If a 2 is in SPOT 2 and a 3 is in SPOT 3 this is a MATCH.

A point before a match is a push. The wager only loses if the shooter sevens out, so let it work ALL DAY. Wager is paid according to Pay Table
