DOUBLE UP Blackjack ¹⁶BONUS

Gameplay:

Multi-deck Blackjack featuring an optional Double-Up wager to win double the money.

How it works:

Players can Double-Up a wager on any 2 card hand with the exception of Blackjack by placing a second wager equal to the original wager. Then the player stands and goes for the win.

Blackjack pays 3:2.

Insurance pays 2:1.

A Double-Up pays 1:1 when player beats the dealer. Ties go to the house.

A dealer 16, game ends, all 21 totals paid 1 to 1, all other wagers push.

The 16 Bonus is an optional wager that wins when the dealers cards total 16. The payouts are based on the number of cards it takes the dealer to total 16 and will be paid per posted pay table.

See dealer for additional game rules.

If you or someone you know has a problem gambling, call 1-800-522-4700.
