

TEXAS DRAW is a fast, fun and exciting poker game that allows players the chance to bet more after they see their final hand!

To start the game, players place the ANTE wager and the optional **TOP THE FLOP** wager. Each player is dealt one card face up and the dealer is also dealt one card, face down. Then four community cards are dealt, face down that make up a five card POKER hand.

The first three cards are revealed as a FLOP to resolve the TOP THE FLOP wager. If the players card beats the highest FLOP card, they WIN up to 40:1

After all TOP THE FLOP wagers are resolved, the dealer will reveal the FINAL community card that will complete the five card POKER hand. Players will then have the OPTION to either; CHECK, and stay with their hand. DRAW, and replace their card with a new one from the deck or RAISE and stay with their hand.

*To RAISE or DRAW, player must DOUBLE the original ANTE wager.

Next the dealer will reveal their HOLE card and play by the following rules:

- DRAW ONE card if they have SIX or less, UNLESS their card creates a hand of ONE PAIR or BETTER. Dealer STANDS on 7 or BETTER. Players must at least have a PAIR or BETTER and BEAT the dealer to WIN.

If the players hand BEATS the dealer, but has NO PAIR, all wagers PUSH.
